

## REMARKS

The present amendments are offered to correct certain typographical errors, instances of poor translation, etc., and inadvertent omissions of the last response.

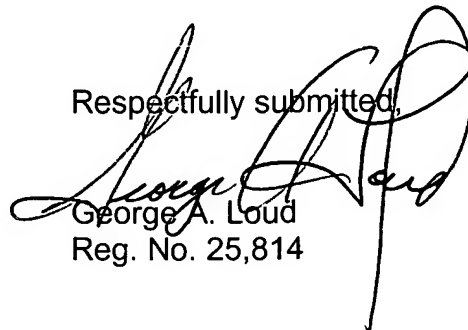

In paragraph [0015] the corresponding language is found at page 2, line 13 of the English translation of the International Application and reads as "4 metil, 1 pentene". It is respectfully submitted that those skilled in the art would recognize the transliteration as corresponding to 4-methyl-1-pentene.

The correction to paragraph [0027] serves to remedy a typographical error.

The amendments to paragraph [0029] serve to correct errors in translation.

The amendments to claims 13, 15, 17 and 19 are made to include calcium carbonate, inadvertently omitted from the list of suitable fillers. See page 2, lines 8 and 9 of the original English translation and paragraph [0013] of the Substitute Specification.

Respectfully submitted,

George A. Loud  
Reg. No. 25,814
